Nurturing Minds : Celebrating World Mental Health Day

World Mental Health Day reminds us that mental well-being is essential for every child's growth and happiness. At Leeds International School, we believe that learning goes beyond textbooks—it includes understanding emotions, building resilience, and caring for one another. Good mental health helps students focus better, form healthy friendships, and face challenges with confidence. When children feel supported and understood, they learn to express themselves openly and develop a positive outlook on life. This day encourages our school community to create a culture where kindness, empathy, and open conversations about feelings are valued. By nurturing young minds with care and understanding, we help them grow into strong, confident, and compassionate individuals.
